

LDV WINERY® – SKY ISLANDER WINE CLUB

The Sky Island region of southeastern Arizona is one of the most biologically diverse areas in North America, where the temperate and tropical zones meet, and North America's two major deserts convene. Here, more species of mammals, birds, reptiles, bees and ants are found than any other place in the country! The ecological richness of these mountainous "island" habitats is equally matched by the cultural splendor found throughout Cochise County.
 (Arizona Wilderness Coalition, 2014)

The Chiricahua Mountains that soar to 10,000' elevation play an important role in creating the unique terroir at LDV Winery® vineyards. The estate vineyard is located at 5,000' elevation in the foothills where the weather, geology, wind, and water combine to create the mountain fruit showcased in LDV Winery® award-winning wines.

Like our wines, the Sky Islander Wine Club is Unique. The Sky Islander Wine Club provides opportunities to connect to the winemaking experience and this special place in the Chiricahua Mountains. Every wine in our personal wine cellar tells a story of a winemaker and experience we have had in a wine region around the world. That is what we want to create with the LDV Winery® Sky Islander Wine Club.
