- Contact: 480/664-4822; Peggy@LDVWinery.com

Did you know that it is difficult to distinguish between white and red wines when you cannot see the color? The interactive “All About Wine Sensory Workshop” expands your sensory wine experience. Using black wine glasses, which hide the color, forces guests to rely solely on aroma, flavor, and texture to identify different wines. This method is both fun and educational, as it challenges assumptions and highlights the importance of aroma and taste in wine evaluation.

LDV Winery provides all workshop wines, handouts, and materials. Additional food, wine, or nonalcoholic beverages can be provided at an additional cost.

Reservations must be made in advance to check availability. For large groups, contact LDV Winery for an event proposal.
